Product **Passenger car**

Risk type **Injuries**

The length of the wiring harness of the front wheel speed sensors might be inadequate. As a result, in certain driving manoeuvres such as full steering wheel angle or full compression/rebound of the suspension, damage to the wiring harness due to tensile load might occur. This could lead to impairment of vehicle's dynamics control systems increasing the risk of an accident.

The product does not comply with the requirements laid down in the Regulation on the approval and market surveillance of Motor Vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product

Disposable electronic cigarette

Risk type

Chemical

This product contains nicotine (20 mg/ml), which is classified as acutely toxic, but it does not have a leaflet providing the consumer with information about safe and correct use of the product. Nicotine is acutely toxic and can endanger the user's safety, notably if the product comes into contact with the skin or is ingested.

The product does not comply with the requirements of the Tobacco Products Directive.

Product

Disposable electronic cigarette

Risk type

Chemical

This product contains more than the maximum permitted amount of nicotine solution (6.5 ml). Furthermore, despite indicating that it contains nicotine (20 mg/ml), the product does not have a leaflet providing the consumer with information about safe and correct use of the product. Nicotine is acutely toxic and can endanger the user's safety, notably if the product comes into contact with the skin or is ingested.

The product does not comply with the requirements of the Tobacco Products Directive.
