

A 10-Point Plan to Cut Oil Use

iea.org

1 Reduce speed limits on highways by at least 10 km/h

4 Make public transport cheaper; incentivise micro-mobility, walking and cycling

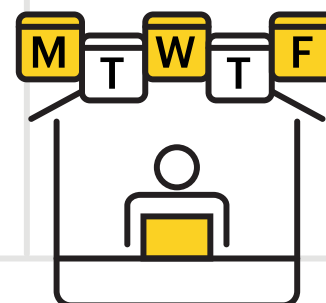

3 Car-free Sundays in large cities

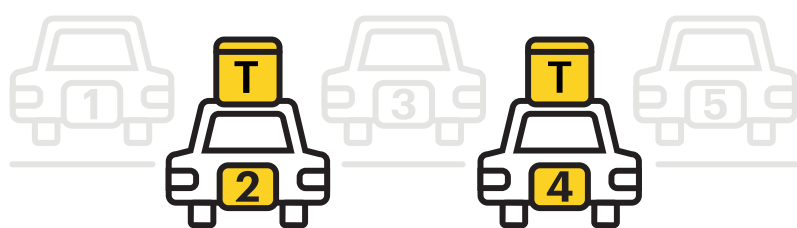

SUNDAY

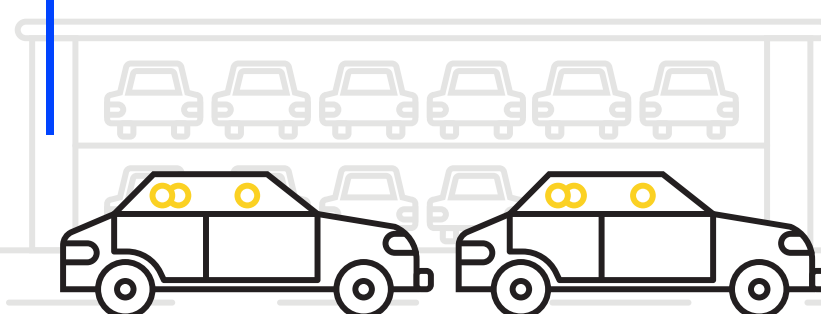

2 Work from home up to three days a week where possible

5 Alternate private car use in large cities

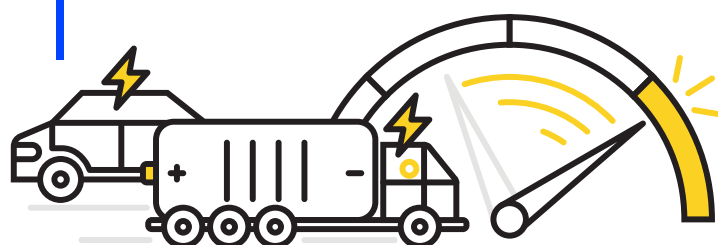

6 Urge car sharing and practices that decrease fuel use

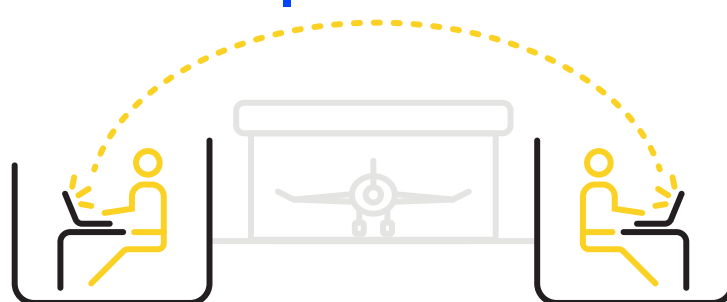

7 Promote efficient use of freight trucks and goods delivery

10 Hasten adoption of electric and more efficient vehicles

9 Avoid business travel when alternatives exist

8 Prefer high-speed and night trains to planes where possible
